Petition to Reduce
Princeton Property Taxes

Princeton University is exempt from paying property taxes to the Princeton Community. Besides an endowment of over $15.8 billion, it also owns more than 40% of the real property in Princeton Borough, and more than 14% of the real property in Princeton Township. If Princeton University paid property taxes, as do other taxpayers, property taxes would have been reduced by 24% to Borough taxpayers and by 15% to Township taxpayers in 2006. Making up this lost revenue unfairly burdens Princeton residents and businesses. We, the undersigned, support our elected representatives' efforts to negotiate a fairer payment from Princeton University:
